A WEBSITE CONCEPT FOR BOUTIQUES AND SPECIALTY RETAILERS

Turn followers into shoppers with collections they can browse, choose and buy.

Your social pages already bring people in. RE5 builds online shops that let them browse every collection, pick sizes, colours or finishes and place an order, so interest from a post can become a sale without a long thread of messages.

Island Heat, a fictional demo online store built by RE5 Agency.

01

Collections in one place

New arrivals, featured looks and full ranges organised so shoppers do not need to scroll through posts.

02

Options made clear

Sizes, colours, finishes and prices shown on each product before anyone has to ask.

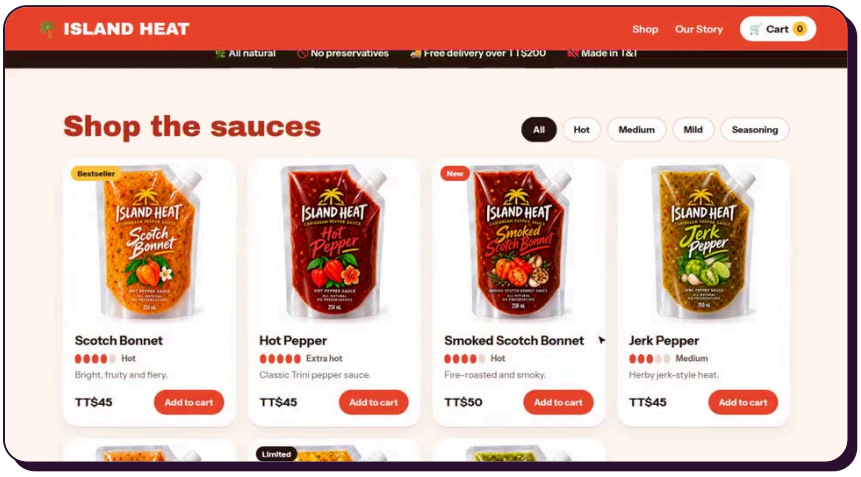

03

A simple way to buy

Cart, delivery or pickup and payment choice, or a reserve-and-collect request if that suits your store.

What your customers would see.

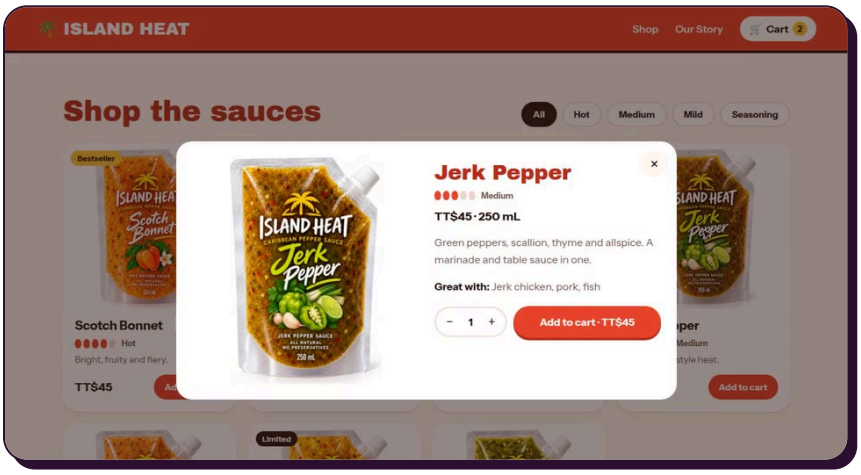

Screens from RE5 demo builds. Every business is different, so what we build is shaped around how you sell today.

Step 1

Browse and filter the range

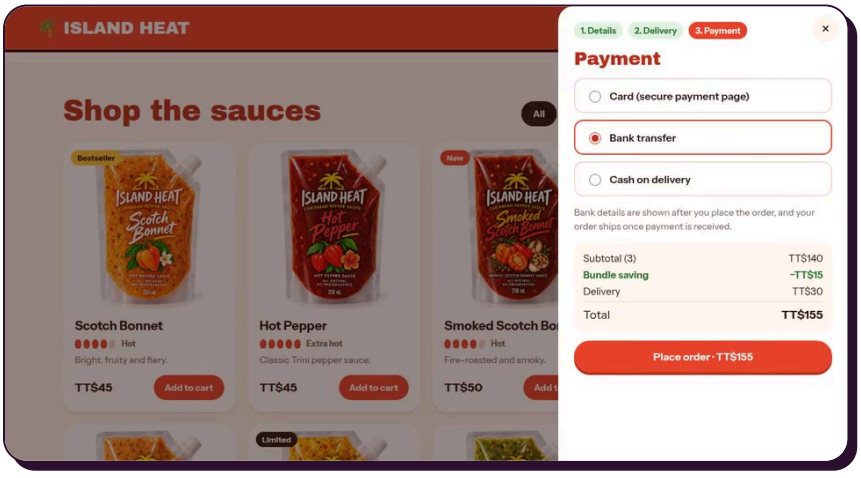

Shoppers filter by category and see prices, labels like New or Limited, and an Add to cart button on every item.

Step 2

Product details and quantity

Each product opens with a description, options and quantity before it goes into the cart.

Step 3

Checkout your way

Customers choose card, bank transfer or cash on delivery, with bundle savings and delivery shown in the total.

Also possible: promotion and event pages, gift selection, workshop or class sign-ups, and orders sent to WhatsApp instead of a full checkout.

Options that fit how you sell.

Every option is quoted based on your needs, after a short discovery conversation.

What we would ask first

- How do shoppers buy from you today: in store, Instagram DM or WhatsApp?
- How often do new pieces or collections arrive?
- Would you prefer full online checkout, or reserve and collect in store?
- Which delivery and payment options do you already offer?

Let's talk business!
