A WEBSITE CONCEPT FOR HAIR AND BEAUTY BUSINESSES

Help shoppers find the right hair, shade and length, then order with confidence.

Your customers already know what they want: a texture, a length, a colour. RE5 builds websites that let them see your full range in one place, build a complete order and come back for more, while you keep the delivery, pickup and payment methods you already use.

01

Browse by texture, length and colour

Every style shown with options and prices up front, so fewer back-and-forth messages.

02

Complete orders in one place

Customers add everything they need, choose delivery or pickup and send a clear order.

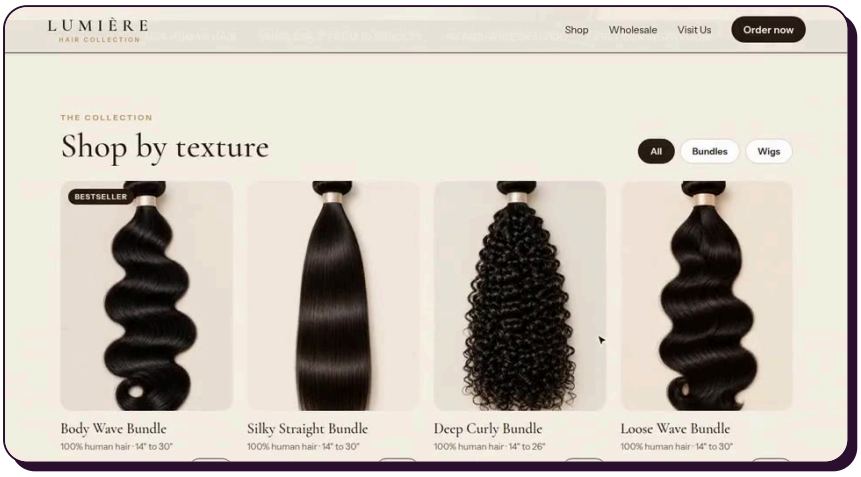

03

Serve stylists and salons

Trade accounts and wholesale pricing for the professionals who buy from you every month.

What your customers would see.

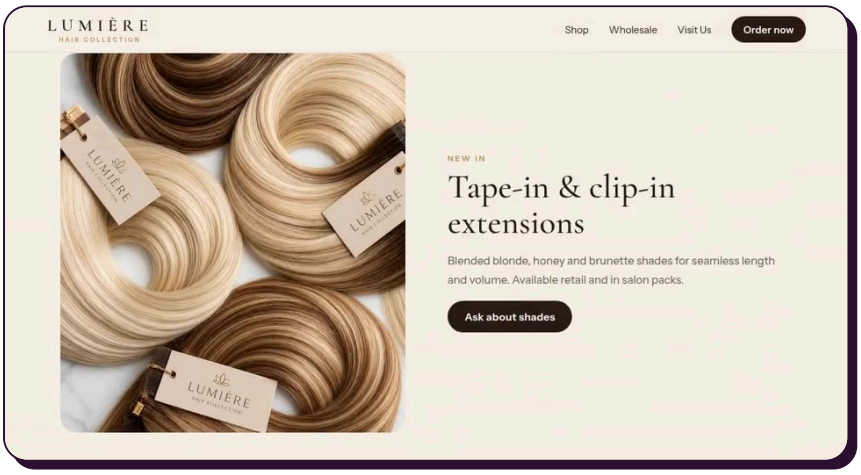

Screens from RE5 demo builds. Every business is different, so what we build is shaped around how you sell today.

Step 1

Shop by texture

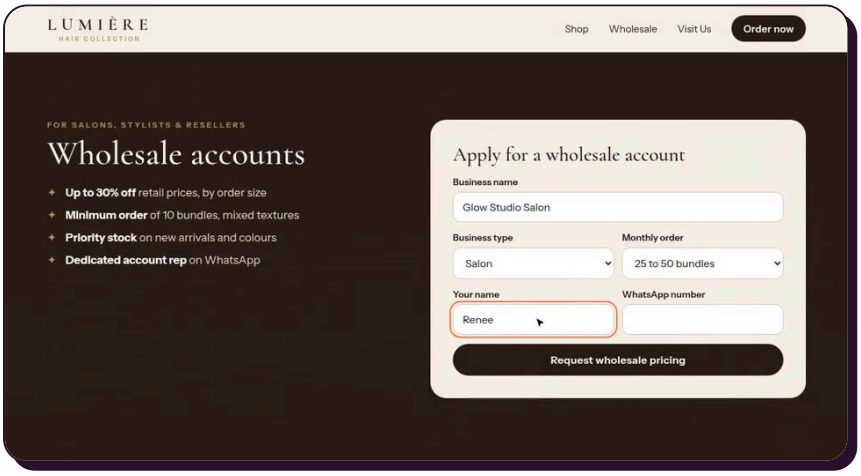

Bundles, wigs and extensions with lengths and starting prices visible at a glance. Filters let shoppers jump straight to what they came for.

Step 2

Spotlight new arrivals

New collections and shade ranges get their own feature, with a button that opens a chat about colours and availability.

Step 3

Welcome trade customers

Salons and stylists apply for a wholesale account online, so trade enquiries arrive with business details and order size already filled in.

Also possible: class or appointment pages with dates and registration, branch and showroom details, skincare bundles, and reorder lists for regular customers.

Options that fit how you sell.

What we would ask first

- How do customers choose hair or products today: in store, by DM or on WhatsApp?
- Roughly how many styles, shades and lengths do you carry?
- How much of your business comes from stylists, salons or resellers?
- Which delivery, pickup and payment options do you offer now?

Let's talk business!
