A WEBSITE CONCEPT FOR NAIL SUPPLY BUSINESSES

Let technicians pick shades, build a restock and reorder in a few taps.

Nail professionals buy by shade, size and quantity, and they come back for the same essentials again and again. RE5 builds online catalogues that make that easy for them and send you complete, itemised orders through the channels you already use.

01

Shade swatches on every product

Polish, pigments and powders shown with their colours, sizes and prices, ready to compare.

02

Saved restocks and quick reorders

Technicians and salons can repeat last month's order instead of starting from scratch.

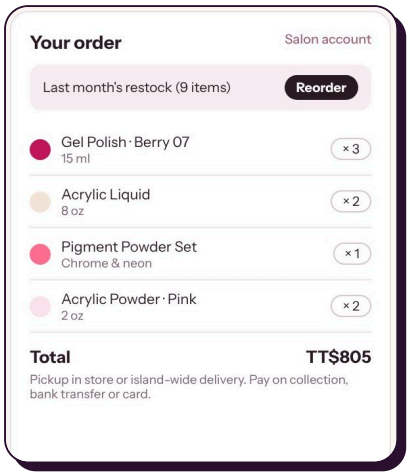

03

Complete orders on WhatsApp

Each order arrives itemised with quantities, pickup or delivery and payment choice.

What your customers would see.

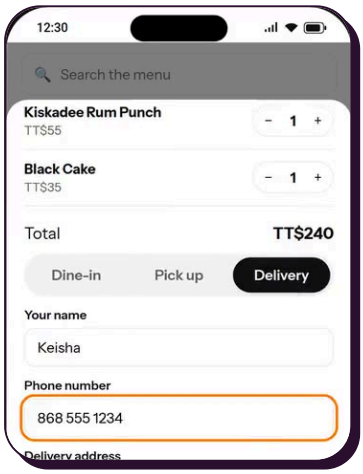

Screens from RE5 demo builds. Every business is different, so what we build is shaped around how you sell today.

Step 1

Reorder the usual restock

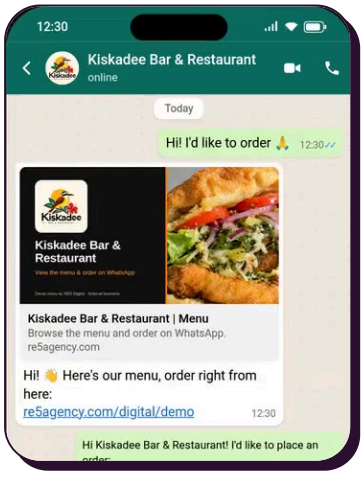

A salon account remembers past orders. One tap brings back last month's restock to adjust and send.

Step 2

Choose pickup or delivery

Customers enter their details once, pick how they want to receive the order and how they will pay.

Step 3

The order lands in your WhatsApp

You receive a clear, itemised message with totals and customer details, ready to confirm. Shown here on our RE5 Digital demo.

Also possible: bulk and salon pricing, bundled starter kits, new-shade drops, class or workshop sign-ups and stock notes such as low or back in stock.

What we would ask first

- How do technicians place orders today: walk-in, WhatsApp, phone or DM?
- Roughly how many products and shade or size variants do you carry?
- What share of sales comes from salons and technicians who reorder regularly?
- Do you offer delivery, and how is payment taken?
