A WEBSITE CONCEPT FOR NAIL SUPPLY BUSINESSES

Let technicians pick shades, build a restock and reorder in a few taps.

Nail professionals buy by shade, size and quantity, and they come back for the same essentials again and again. RE5 builds online catalogues that make that easy for them and send you complete, itemised orders through the channels you already use.

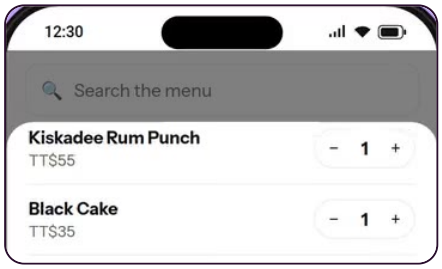

Step 1

Reorder the usual restock

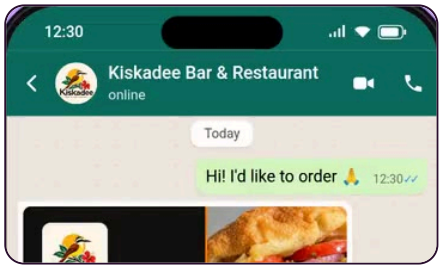

A salon account remembers past orders. One tap brings back last month's restock to adjust and send.

Step 2

Choose pickup or delivery

Customers enter their details once, pick how they want to receive the order and how they will pay.

Step 3

The order lands in your WhatsApp

You receive a clear, itemised message with totals and customer details, ready to confirm. Shown here on our RE5 Digital demo.

Why it helps

- **Shade swatches on every product.** Polish, pigments and powders shown with their colours, sizes and prices, ready to compare.
- **Saved restocks and quick reorders.** Technicians and salons can repeat last month's order instead of starting from scratch.
- **Complete orders on WhatsApp.** Each order arrives itemised with quantities, pickup or delivery and payment choice.

Options: RE5 Digital · Business Website · eCommerce Website. Every option is quoted based on your needs.
